At BASIL BURCHELL's,
JEWELLER and GOLDSMITH,
At the Sign of the ANODYNE NECKLACE, N^o 79, Long
Acre, Two Doors from Great Queen Street, London;

And by his Appointment, at Mrs. Randall's Medicine
Shop, exactly facing Mr. Hazard's Lottery Office, at
the Royal Exchange, and positively no were else in
London—are sold the famous

ANODYNE NECKLACES,
Price 5 s. 5 d.; and 54 s. per Dozen to sell again.

N. B. The greatest Variety in London of Gold and
Silver Locketts for these Necklaces, also a beautiful Assort-
ment of Silver and Gilt Corals, Silver Pap Boats, Pap
Spoons, and Childrens Clasps.

The True State of the Question,
Concerning Dr. CHAMBERLEN's Famous

ANODYNE NECKLACE

For Children's Teeth, Fits, Fevers, &c.

A Certain Remedy having been used in private Practice for
some Years in several Families, for Children easily to
Breed, and Cut their Teeth:

And this not any Physick to be given them Inwardly, (which
Children are never very willing to take) but are Ready made in

[c. 1790]

the Form of a NECKLACE for them to WEAR only about their Necks, which can easily be done by any Child, even when it refuses all Internal Physick,

And which has been attested to have acted by a Secret friendly *Sympathetick* Quality so Efficaciously on Infants that had only worn it, that whereas *Before*, they were almost ready to Die with their Teeth, Fits, Fevers, Convulsions, &c.

After they had only Worn this wonderful Sympathetick Necklace, they so to Admiration Recovered, Grew Well, and Lusty, that all about them were Amazed at such a Change.

Such unexpected Recoveries as these of Infants almost despaired of, after their only WEARING this *Necklace*, soon gave it a great Esteem in those Families who had used it.

Now, The Person that thus supplied Families with these Necklaces, by Recommendation of One Family to Another, being the ONLY One that knew the right SYMPATHETICK Drugs of which they are prepared, perceiving their Reputation increase daily, wrote this Treatise, and thought proper to Publish them.

And, In order to proceed with Authority in the Publication That Great Physician, and Man-Midwife Dr. *Chamberlen*, so famous for being far and near Advised with in Children's Ailments, was consulted about it, and the Prescription of the Necklace was Communicated to him,

Upon which, He was pleased not only to Approve of it, but also gave his Approbation of it under his own Hand, with Leave to Publish it, and Recommended it Himself to all Persons who Enquired of him about it, as a Sovereign Sympathetick Necklace for Children to *Wear* for their *Teeth*.

Dr. Chamberlen's Approbation of the Anodyne Necklace.

I Hereby Testify that I Approve of, and Recommend the Anodyne Necklace for Children's Teeth, and Fits, which I know to be a most proper thing for the Purposes design'd.

P. Chamberlen, M. D.

This admirable Necklace being thus Honoured with this Great Man's Esteem, and Approbation, First Appeared in the News Papers in the Year 1715, by the Name of

The ANODYNE NECKLACE.

And soon after, COUNTERFEITS of it were Trumpt up, the usual Fate of all Valuable Discoveries :

Pretending that Those Counterfeit Necklaces were also Recommended by Dr. *Chamberlen*, which to Convince the World how FALSE it was, and that NO OTHER Necklace

was EVER either Recommended, or Approved of by Dr. Chamberlen,

The Doctor (to Apprise the World of this Unwarrantable Prostitution of his Name) immediately ordered Another, the following Approbation to be Publish'd in the Publick News Papers, and which accordingly was done, as follows.

I Hereby Testify that I Approve of, and Recommend ONLY the Anodyne Necklace for Children's Teeth, Fits, Fevers, Convulsions, &c. sold at Mr. Burchell's: which I know to be a most excellent Thing for the Purposes design'd. All others I disown as Spurious, and Counterfeits; and if said to be Recommended by ME, are an Imposition on Me, and the Publick, I never having Recommended any OTHER Necklace for Children's Teeth, Fevers, Fits, &c.

Therefore I hereby Caution all Persons Carefully to beware of
COUNTERFEITS. P. Chamberlen, M. D.

These TWO publick Recommendations from this Great Physician of this Necklace, fully convinced the World that it was no Insignificant thing, since so Celebrated a Man as Dr. Chamberlen in so publick a Manner thus became its Patron.

Country Shop-Keepers, Merchants, Captains of Ships, &c. to Sell again (they being so Esteem'd Beyond Seas, and so Demanded, as to Sell Above their Common Price)

Have these Necklaces for £. 2. 14s. a Dozen, Or Six for £. 1. 7s. Stamp Duty included.

With Plenty of the Books to give away along with them.

To be had of Mr. Burchell in Long-Acre, and of Mr. Bowen, under the South Gate of the Royal-Exchange.

Concerning COUNTERFEITS

At the Royal Exchange;

All Persons are desired to
take Notice, That

NO OTHER Shops whatsoever in London but only Mr. BURCHELL in Long-Acre, and Mrs. RANDALL's, late BOWEN's, under the South Gate of the Royal Exchange, have The Right, and True Famous (now for many Years)

ANODYNE NECKLACE,
Which the Great Dr. Chamberlen so much Recommended.

EXACT COPY OF THE MEDAL.

THE FRONT.

THE REVERSE.

A CAUTION to PURCHASERS.

AS many persons are daily deceived, particularly messengers and servants, by the despicable manœuvres of a set of artful and unprincipled men, whose situations in life are so desperate, as effectually to shield them from any Prosecution, the public are requested, in future, to ask for BURCHELL'S ANODYNE NECKLACE, and to observe *Basil Burchell*, at full length, both on a Label and the Stamp Duty, and on no account to purchase the *Necklace*, or any of the *Sugar-Plums for Worms*, without having a medal made of a metal nearly resembling silver, the same as given with this book, fixed on the outside of each *Necklace*, and one formed of fine copper, attached to the outside of each box and packet of *Sugar Plums*, or they will certainly be deceived by counterfeit Shops in the neighbourhood, to the great prejudice of the unfortunate children that may chance to wear them; therefore, before you send, be sure to copy the name *Basil Burchell*.

How a Medicinal Necklace Acts on the Teeth.

OUT of the Pores of a *Medicinal Necklace*, when WARM'D by being about a Child's Neck, there Flows (according to a Maxim in Physick concerning Anodyne Sulphureous Medicinal-Bodies) a vast Swarm of Subtle Effluvia, from the prodigious Quantity of *Alcalious Anodyne Sulphur*, and *Spirits*, with which the *Sympathetick Drugs* that such a *Medicinal Anodyne Necklace* is Prepared of, abounds.

Now, These Effluvia Flowing thus in such Swarms out of the WARM *Necklace*, and Wandering about the Mouth of the Child, are presently DRAWN into the Ailing Gums by the violent SUCTION the Swell'd Gums are Endowed with.

Which makes them Draw violently to themselves (as all Ailing Parts do, from a Desire they have of Ease) whatever *Pain-Easing Atoms*, and *Effluvia* the Circumambient Air is Loaded with.

And Then it is, that the *Pain-Easing Effluvia* flowing thus out from a *Medicinal Anodyne Necklace*, by their *Affiduous*

CROWDING themselves into the Swell'd, Sore, Tender ALVEOLI, or Sockets, where the Teeth Lie, Gently, and without any Violence, Open them, to Let the Teeth out, Just as

Gutta Cavat Lapidem, non VI, sed SÆPE Cadendo.

And Those Physicians who have Recommended so much in their Writings a Medicinal Necklace to be WORN by Children for their Teeth, and Fits, ALL of them agree in This,

That such a Necklace acts more vigorously from the Adventitious Warmth it acquires by being about the Child's Neck;

Just as Amber, Jet, Glass, Agate, &c. will, by Warmth acquired from their being strongly Rub'd against any thing, send forth such a Store of Subtle Effluvia, as to Draw to themselves from a Considerable DISTANCE, Hairs, Straws, and other Light Bodies, which they will not Draw at all when COLD.

And this Warmth makes a Medicinal Necklace to send forth its Pain-Easing Effluvia more Plentifully, than when it is Cold.

And by this Means the Gums are Open'd, the Pain Ceases, the Fever Vanishes, Fits are prevented, and the Teeth soon Come Out with Safety, as has been Affirmed by Numbers of Parents, whose Children have WORN the Famous Anodyne Necklace.

Whereas those Children DIED in Misery, who have Worn a COUNTERFEIT Necklace, Truſt up to Deceive People.

And that there is a Principle of Action in the Anodyne Necklace, Roused, and Stir'd up by its being WARM'D about the Child's Neck, which, when it was Cold lay Dormant, and Inactive, has been Discovered by some Curious Gentlemen.

Who affirmed that they nicely Viewed it thro' a Fine Microscope, and they plainly saw infinite Numbers of Particles all in a Hurry, and Motion about the Anodyne Necklace.

Above Principles applied to the Anodyne Necklace.

W HEN a Medicinal Anodyne Necklace is Worn by a Child for its Teeth, Fits, Fevers, Convulsions, &c. according to the Maxim in Physick Above,

It Emits, Exhales, and Throws out of it such a vast Number of Medicinal Atoms, and Effluvia, that Mr. Boyle positively asserts a real Atmosphere of 'em to be as certain about such a Medicinal Necklace, as of those Effluvia round a Load-stone, or a Bit of Camphir, Roses, Spices, and other such Odorous Bodies.

Thus the Great Vossius, l. 1. de Philos. Sect. c. 8. Remedia de Collo Pendentia (i. e. Medicinal Necklaces for Children's Teeth) Effluvia Ori (into the Child's Mouth) infundunt, Eoque pacto morbo profunt. These Atoms flowing thus out of the Medicinal Anodyne Necklace the Child has about its Neck, fill the Air that surrounds the Child's Mouth: This Dr. Willis affirms,

De Feb. p. 235. Effluvia, seu Corpuscula subtilia a Remedio de Collo pendente, (that is a Medicinal Necklace about the Child's Neck) per totam aeris regionem CIRCUMVOLITANT, &c.

And consequently, Those Medicinal Effluvia flowing from the WARM Necklace, furround the Child's Mouth, and There they enter, being drawn into it by the violent SUCTION the Swell'd, Spread, Sore Gums are endowed with, as above said :

By which they Draw strongly to themselves whatever Healing, and Comforting Atoms, and Effluvia the Circumambient Air that furrounds the Child's Mouth is loaded with, exhaled out of the WARM Necklace which the Child has about its Neck.

And which Sore, Swell'd Gums of the Child, being out of their Natural due Order, are by consequence in *Statu violenti*.

And therefore are Swell'd, and Inflamed, whereby their Pores are more than usually opened, dilated, and distended, and of course more ready than at any time in *Statu sano*, to receive whatever comforting Atoms their Circumambient Air is Loaded with.

And to shew that this is no new Doctrine, *Galen De Simpl. Med. fac. l. 9.* Prescribes a Remedy to be WORN about the Neck for the Falling Sickness, and explicates its Way of Curing Thus, *Partes quaspiam a Remedio defluentes, affectos ita Curare.*

Dr. Turner De Morbis Cutan. p. 349. strengthens this Opinion with the following Comparison, thus, Nor is it any thing strange that Sanative Effluvia from an Outward Remedy, should Cure a Disease, since Infectious Atoms, and Effluvia, as in the Plague, Small Pox, &c. are able to cause those Distempers.

So that without a Disparity be shewed in these Examples, no Objection will ever be of any Force against the Effluvia of a Medicinal *Anodyne Necklace* WORN by Children, being of Service to them. The same Reasons holding for both.

NOTE. The Famous *Anodyne Necklace* looks Handsome about a Child's Neck, and Weighs about a *Dram*.

HER Late Majesty QUEEN Carolina, Sent MONTHLY for these Necklaces, for Her ROYAL Children,

Her MAJESTY being so highly Satisfied with their Efficacy and Safety,

That Her Method was, to Have a FRESH Necklace Every Month for the Child that was Toothing, to be Surer of it's Virtue,

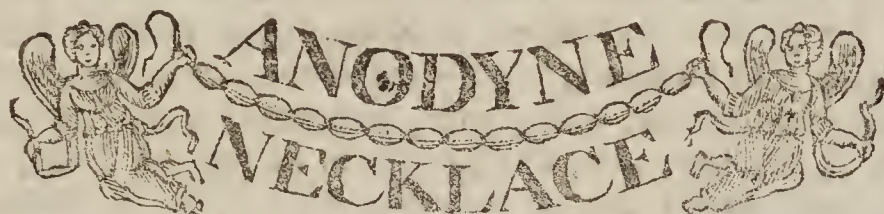

And Her late ROYAL Highness the Princess of Wales, took the same Method, and Sent MONTHLY for FRESH Necklaces for our Present Most Gracious King and the Rest of Her ROYAL Children: Whose Example has been followed by our Present Most Amiable Queen, and Most of the European Nobility.

Of Breeding, and Cutting of T E E T H.

OF all Ailments incident to Children, as there is None more Fatal than this of their TEETH, so Never is a Mother's Care more wanting, than to help them in this their Suffering Condition.

When therefore the Child is about Breeding its Teeth, which the Mother will Easily know by its Gums being Spread Broad, Sore, Swell'd, and looking Whitish.

Means should be used Both to Ease the Gums, which are Hard, Hot, and Pained by the Teeth Pressing up within them, And to Soften them, that the Teeth may come the EASIER out. Now for Both these Ends, Besure, If you have got Dr. Chamberlen's Famous

for your Child, Don't fail to Wet the End of your Finger in that Sovereign *Pain-Easing Powder* that is Along with that Celebrated *Anodyne Necklace*.

And Rub To, and Fro the Child's Gums with it as often as you think the Child's Mouth is Hot, and in Pain, to give it Ease, and to cause the Gums to Open for the Teeth's more easily Coming out of them with S A F E T Y,

Which otherwise might have Caused Fits, Fevers, Convulsions, and other Illnesses, and have been its Death.

And also This Rubbing thus its Gums, will very much Please, and Divert the Child: Because this *Pain-Easing Powder*, being of a fine pleasant Taste, the Child will Covet to have your Finger Wet with it, to be upon its Gums.

So that, Whenever it is thus Afflicted with the Teeth's Shooting up under its Sore Gums, Besides the Child's Wearing that *Anodyne Necklace*, Rub its Gums in the Manner just now mentioned, to Soften them, and to Please it.

Price only 1s. 1d $\frac{1}{2}$. or three Parcels for 2s. 8d. Stamp Duty included.

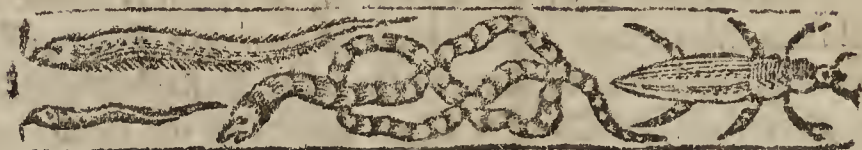

The Famous Purging SUGAR PLUMS.

COMMON Sugar Plums at the Confectioners are indeed Bigger than These, But as for Colour, Taste, &c. these may be Eaten like a Sugar Plum from the Confectioners.

Or, Dissolve them like a Bit of Loaf Sugar in a Spoonful of Ale, Beer, Tea, Milk, Gruel, &c. and so take 'em.

The Famous SUGAR PLUMS for WORMS, &c.

THEY are the best Physic in the world for children, and all persons who are averse to quantities of Apothecary's draughts, bolusses, pills, &c. which are generally very difficult to take, disagreeable in taste, and unfriendly to the stomach. The properties of this medicine are truly astonishing! If three doses of them are taken twice a year, viz. at spring and fall, either by grown persons or children, they entirely free the body from foul humours, purify the blood, completely cleanse the stomach, bowels, and glands, producing a perfect state of health. They have also, during a term of seventy years, been administered with the most surprizing success, for the following complaints, viz. agues and fevers of almost every description; the head-ach, cholics, gripes, rheumatism; thickness of hearing, want of appetite, coughs and colds of every denomination, but particularly the whooping-cough, which is so very common, and too frequently baffles the skill of the most eminent physicians. For sickness, pains at the stomach, shortness of breath, and even confirmed asthmas, this preparation has not its competitor. It is also prescribed with the greatest propriety after the small-pox and measles: In short, it has been found; on repeated trials, the best and cheapest family physic extant; three dozen in a box for 2s. 8d. or one dozen for 1s. 1d. $\frac{1}{2}$. To merchants, country dealers, and charitable persons, to give away, 10s. per gross.

N. B. They may be given with the greatest safety to children of the most delicate constitutions.

The diagnostic signs of worms are, a big belly, pale looks, hollow eyes, offensive breath, itching of the nose, unquiet sleeps, with starting, grinding of the teeth, and crying out, a looseness, dry cough, gripes, pining away, pain and sickness at the stomach, inclining to vomit, itching of the fundament, attended sometimes with dulness, heaviness, and extreme thirst.

N. B. Should any child or grown person exhibit but one of the above symptoms, there is great reason to apprehend worms to be the only cause, therefore that person should immediately take the famous Sugar Plums, which will certainly restore health, should it even arise from any other cause.
